FRIDAY, 6 APRIL 1950.

Meeting with DD/P and Director of Training.

Telephone conversation with Mr. Wisner who reported that the problem of CIA responsibility for coordination in the field of supporting the PW effort came up again yesterday at the meeting of the NPSB. Difficulty was encountered with following wording in the draft: "In accordance with general principles to be worked out between the NPSB and the heads of the five intelligence agencies, CIA will see that appropriate intelligence support is provided for PW and that the intelligence activities of the government departments and agencies in this field will be properly coordinated." Chief objection was to the first phrase, "In accordance with general principles to be worked out..." on the grounds that this was confusing surplusage and that the only way it could be interpreted was that there would be a double process of coordination. DDCI stated that was fair criticism and was not the wording he wished for the draft. DDCI suggested the following, "In accordance with general principles, CIA will, through the various intelligence agencies, coordinate activities in these fields to see to it that the Board gets support in this field." He stated that CIA has these duties as a matter of law. AD/PC asked if the following proposal was agreeable: "The CIA will see that appropriate intelligence support is provided for psychological warfare and that the intelligence activities of the government departments and agencies in this field will be coordinated." DDCI concurred; AD/PC will forward this to the Board, who has agreed on this statement. The draft will now be sent by the Board to NSC.

Upon inquiry, AD/PC was informed that the meeting yesterday between DCI and Defense officials came out as recommended by DCI and will be made a matter of law at the NSC meeting (amendment of NSC-10/2).

DDCI asked AD/PC's opinion re DD/P contacting [redacted] this week-end in New York. AD/PC recommended that [redacted] be contacted. [redacted] is being considered for direction of para-military affairs in OPC.

Telephone conversation with Deputy Secretary of Defense Lovett who informed DDCI that Gen. MacArthur had stated at the hearing that CIA reported in November 1950 that there was little likelihood of Chinese Communist intervention on a major scale in Korea. DDCI advised that CIA had compiled complete record of what CIA had reported on Korea since before the beginning of hostilities. Secretary Lovett asked if CIA sent Gen. MacArthur copies of its intelligence estimates. DDCI stated that dissemination of CIA reports to Gen. MacArthur was made by G-2; that actually there were two ways Gen. MacArthur would receive CIA intelligence: 1)--raw information collected in the FE command and available to the intelligence headquarters, and 2)--finished intelligence products which are distributed through G-2. Secretary Lovett suggested that CIA give the report on the estimates to JCS who will submit it to the auditing committee prior to its presentation at the hearing. This will serve as a better cover for CIA.

Telephone conversation with RAdm. Sidney W. Souers, Special Consultant to the President, who reported that the President had stated at the news conference that CIA did not operate in Gen. MacArthur's theater until after

Gen. Smith had gone to Tokyo to straighten out the difficulties. Adm. Souers asked if that statement was too broad. DDCI advised that CIA operations were greatly handicapped until after Gen. Smith's trip to Japan. Adm. Souers also asked if Gen. MacArthur received CIA estimates. DDCI said Gen. Bolling, AC/S, G-2, was the proper authority to answer that question since CIA reports are sent to the military who determines dissemination to the field, but it is doubtful that G-2 would withhold such reports from Gen. MacArthur.

Telephone conversation with White House Press Secretary Short who advised that the President had told the press conference that CIA was excluded from FE Headquarters until Gen. Smith went to Tokyo. DDCI said that was a little too broad--CIA was admitted to headquarters but CIA was excluded from effective operations until Gen. Smith made the trip to Japan. Upon query, DDCI said Gen. Smith left for Tokyo on 12 January 1951.

Conference with DCI and AD/NE.

Telephone call received from Mr. Donovan, NY Herald-Tribune, asking for background information on MacArthur's statement that CIA reported in November 1950 that there was doubt the Chinese Communist would intervene in Korea on a major scale. the reports; AD/NE said [REDACTED] was tops in his field
but he did not fit into ONE's set-up, and that [REDACTED]

DDCI explained that ONI had sent their best man to ONE

officers from the other intelligence agencies; feared that
transferring [REDACTED] to OSO would hamper long-range
cooperation as there would be reluctance to assign personnel
because of such transfers within CIA. DDCI thought it best

Also, that Dr. Langer thought [redacted] could take over [redacted] work. DDCI said this could not be done because there were two different positions. If the Agency could be sure that Navy would select another man for the staff job in ONE, DDCI said he would be glad to see [redacted] released. DDCI referred to conversation with DCI re Mr. Gordon Gray's staff and office space. Thought Mr. Gray should be consulted about this because he would probably want to pick his own staff and office space. DDCI will talk with DCI again about it.

Discussed article appearing in Washington Post today which reported that Mr. Gray's position on the Psychological Strategy Board would pay \$16,000 per year although he would serve about two days a week.

Mr. Wisner reported a good deal of trouble on the reorganization of OPC as being effected by office of DD/P. He understood that the reorganization would have to be approved in Director's office, after coordination with AD/PC. At the present time, the trouble concerns the publicity given by office of DD/P to the reorganization.

[redacted] are setting up the [redacted] with [redacted] to be the chief. OPC people have threatened to quit because they do not believe [redacted] is the most competent person to head the division. However, [redacted] said he planned to go ahead. DDCI said he would talk to DD/P about it this afternoon but that DD/P does have the right to select his division chiefs.

Telephone conversation with Mr. Kingman Douglass, AD/CI, who said he and Mr. Becker had lunch today with [redacted] [redacted] told them he would enter on duty about the 1st of September with AFSA and might be able to do a report for us on certain phases of our activities there.
